

March is Lice Awareness Month at Johnson School

- Take the Weekly “lice check” Challenge
- Read weekly updates about lice on the web site

Hello Parents,

During the month of March, the PTO is challenging all families at Johnson School to check their children once a week for lice. Each family can pick a day of the week that is convenient for them and spend 5 to 15 minutes combing each of their children’s hair (the time to comb is dependent on the length of the child’s hair) each week for the entire month of March. Just doing this weekly check should greatly reduce the cases of lice in our school.

Also during the month of March we will continue to provide information on our web site about lice with weekly updates to our information.

Finally, the PTO has purchased lice combs and will be selling them to anyone who wants them at cost. We are selling “Terminator” lice combs at \$8 per comb. They can be purchased anytime by contacting Dori Ross or they will also be for sale at the next PTO meeting on March 4th.

Please consider taking the challenge! Let’s make our school lice free.
